THE U.S. WOOD PRODUCTS INDUSTRY:

- Makes products essential to everyday life from a renewable resource that absorbs and sequesters carbon.
- Employs over 450,000 people in wood products manufacturing and supports additional jobs in forestry and other industries.
- Pays over $1 billion in state and local taxes annually.

Wood products data does not include paper and pulp industry

The American Wood Council (AWC) is the voice of the North American wood products manufacturing industry, providing information on wood design, green building, and environmental regulations and advocating for balanced government policies that affect wood products.
